a mediterranean city

If diversity is what you are looking for in your Spanish immersion courses in Spain, you will find plenty of it in Alicante, in the Costa Blanca region.

Alicante combines classicism with modernity, leisure with business, fun with study, and even mountain and beach.

The richness of Alicante's history is preserved through its archaeological remains. The beauty of its monuments along with the charm of various festivities and cultural events held throughout the year increase the appeal of the city.

The wonderful beaches and mild climate all year round make Alicante one of Spain's most important tourist areas.

All in all, Alicante is a Mediterranean city, with its beautiful beaches, its promenades, its restaurants, cafés and terraces, its nautical club...

If you go up to the top of the hill of the Santa Barbara Castle, you will discover an unforgettable panoramic view of the most important monuments in Alicante: the church of Santa Maria, the Cathedral, the Town Hall façade, the monastery of Santa Faz, the San Fernando Castle and much more. Seeing all these magnificent monuments from above will invite you to go down the hill and walk along them.

Along the streets, you will come across large and small palaces, as well as traditionally painted white, yellow and pink houses. Everything is illuminated by the blue light of the Mediterranean Sea and encourages you to continue walking around and discovering places.

The widest avenues, such as La Rambla or Doctor Gadea will lead you to Alfonso X el Sabio Street with the Luceros on one side and the Central Market on the other, just opposite the School of Spanish.

Students will be expected to act mature and responsibly.

residence/dormitory

Living in a residence gives the students the opportunity to practice their Spanish with other students from all over the world.

The residence has been carefully chosen by our school staff. During the school year it accommodates students from University and is therefore fully equipped with modern facilities.

It is a modern building with cafeteria and restaurant, TV room and Internet room, laundry and several living rooms to relax and the possibility to play football and basketball on special courts on the grounds or swimming.

The residence is situated in the university area, about 20 minutes from the school or the centre of Alicante by bus and students will be accompanied to the school and sport camps by monitors.

Students will have a twin room of 16m², which they will share with another student. All rooms are equipped with air-conditioning. The room includes a bathroom with a shower, cupboards and a desk. Furthermore the students can use the internet in their rooms and have a telephone with which they can receive incoming calls from their parents. Two twin rooms, i.e. four students, share a kitchen which is equipped with a microwaves and a fridge.

The residence provides the bed linen and towels, but they must bring their own towels for the beach. Students will have laundry once or twice a week and they should keep their room clean and tidy.

As in any other residence there are some norms the students have to respect. At the beginning of the stay our staff members will make them familiar with the residence rules.

All the students should arrive the evening before the beginning of the Spanish course and leave the accommodation the day after the end of the Summer Camp. Days before or after are considered extra nights.

full board with three meals

Regarding the meals, students will have full board:

- Breakfast at the Residence: Breakfast in Spain usually consists of juice or yogurt, hot chocolate, tea or coffee with milk, bread or biscuits, butter and jam or cereals.
- Snack during the Sport camp: cereal bar or sandwich, fruit and water.
- Lunch: During the week, from Monday to Friday depending on the camp, have lunch at the Nautical Club Restaurant or Tennis Club Restaurant -always with Zador group leaders-.

On Saturday and Sunday students receive usually a packed lunch with two sandwiches (“bocadillos”), fruit and drink, thus students can enjoy the excursions and trips or the beach with Zador School group leaders.

- Dinner is around 21:00 or 21:30. Students can choose the food in buffet restaurant with a variety of dishes every day (starters, vegetables, meat or fish and fruits or dessert).
- Special requirements: students with special dietary requirements should make a note in the enrolment.

some rules in the residence

Phone calls and Internet: There is a Public Phone at the Residence. Students can use calling cards. There are computers with Internet access.

Student expenses: Remember that the students should pay their own expenses on excursions if they want to buy soft drinks, ice creams, snacks... We suggest around €10- €15 per day as pocket money.

a 24-hour pick-up service on request

Alicante has excellent connections with other cities in Spain and Europe.

The majority of the students arrive by plane. The Alicante airport (El Altet) is located 11 km from Alicante and it takes about 30 min from the airport to the city centre. There are domestic and international flights that connect Alicante to the main European and Spanish cities.

Transfer service from Alicante airport, bus station or train station is not included in the package price. A representative of the school can pick students up at the airport and bring them directly to their place of accommodation.

If you want the transfer service, fill in the corresponding section in the enrolment form, specifying clearly the Airline, the flight number, the date and time of your arrival.

Since Alicante airport is small, you will quickly see a person with your name that will be waiting for you when you exit the terminal.

Zador Spanish School provides you a 24-hour pick-up service from the airport to go directly to the accommodation.

All the students are covered by a medical, accident and travel insurance: INSURANCE INCOMING PLUS, especially designed to cover contingencies in foreigners' trips taken in Spain, is the most comprehensive and complete insurance on the market and recommended by the main receptive Travel Agencies.

Includes 7 types of insurance in 1: Medical assistance for illness or accident, with repatriation and relocation for health to your country of origin; robbery of, search for and localization of baggage; loss of services previously contracted; delays of trip and baggage; accident while travelling 24 hours; civil liability and legal defence.

With continuous 24 hour Service Centre.
